About

I'm a second-year Bachelor of Engineering (Honours) / Bachelor of Information Technology student at QUT, with experience spanning customer support, sales, leadership and operations across IT retail environments.

I thrive under pressure, adapt quickly to new roles, and balance responsibilities with professionalism and enthusiasm. I bring a strong interest in technology and electronics alongside a commitment to continuous learning and growth — reliable, approachable, and eager to contribute while developing long-term career skills.

Where I've worked

Apr 2026 — now **Online Assistant Department Manager (current)**

Woolworths Group

Managing daily e-commerce fulfilment operations within a high-volume retail environment. Overseeing a team of 12 personal shoppers and other department staff to ensure KPIs and targets are hit across daily, weekly and quarterly time frames.

The role involves resolving escalated customer inquiries, troubleshooting logistical bottlenecks, and coordinating directly with partners to benefit the customer experience. I've gained valuable experience in team leadership, operational logistics and rapid problem solving.

Team leadership (12 staff) · E-commerce fulfilment · KPI management · Operational logistics · Escalation handling

Apr 2025 — Apr 2026 **Meta Sales & Marketing Specialist**

Retail Safari

Working across key retail partners including JB Hi-Fi and Harvey Norman to drive customer engagement, sales, staff development and troubleshooting IDUs. Delivering in-store demonstrations of Meta Quest VR headsets and Ray-Ban Meta smart glasses for training purposes to Retail Sales Associates (RSAs).

Building strong relationships with RSAs by providing tailored training, role-playing scenarios, and enrolling team members in the Meta Sales Academy. Acting as the “go to” product expert for RSAs and customers in store, supporting new product launches at several large-scale events, and representing Meta with Retail Safari during key partner events such as the JB Hi-Fi tech roadshow. Gained valuable experience in customer engagement, sales growth, as well as technical and customer support.

Also, while I was there

I undertook a **Meta Marketing Manager (MMM) relief role** for the South Brisbane – Tweed Heads territory during key retail periods, and whenever the active MMM was unavailable. It focused on relationship building, IDU/fixture maintenance and RSA product development — travelling across the territory at around four stores a day, running IDU health checks and product training. The relief position totalled about two months over my time with Retail Safari.

Product demonstration · Staff training · Sales growth · Territory relief · VR / smart glasses

Oct 2024 — Feb 2025 **Sales Representative**

JB Hi-Fi, Bundaberg

Retail sales and operations across multiple departments including Games and IT. Assisted customers at the counter, processed sales transactions, and conducted initial repair inspections before forwarding items for further servicing.

Also worked back-of-house operations — unpacking and sorting product orders, applying price/SKU labels, and maintaining efficient stock management. Developed strong customer service, technical assessment and inventory handling skills in a fast-paced environment.

Consultative sales · Repair triage · Stock management · POS

Apr 2021 – Apr 2024 **Crew Coach**

McDonald's, Bargara

Progressed from a general kitchen role to a leadership position as Crew Coach, responsible for training new team members and ensuring they understood their responsibilities and company values.

Took on light managerial duties, including supervising operations during peak hours when the floor manager was unavailable, and assisted with store opening and closing procedures. Thrived in a fast-paced, high-pressure setting, developing leadership, problem-solving and teamwork skills.

Training & mentoring · Shift supervision · Open / close

My projects live on GitHub. I keep several ongoing builds across different corners of IT — hardware, software and everything I can get my hands on.
